

Protect your **business & your clients.**

Data Breach Prevention and Compliance Made Simple and Affordable.

- HIPAA
- GLBA
- Red Flags Rule
- State Laws

Multiple data security laws... One simple and affordable compliance solution.

InfoSafe® makes it simple and affordable for businesses of all sizes to protect against a data breach, and to meet the complex compliance requirements of federal, state and industry regulations for safeguarding customer information, including HIPAA-HITECH, GLBA, Red Flags Rule, PCI, and state laws.

- Helps maintain compliance with multiple laws and regulations
- Complements existing efforts and fills critical gaps
- Reduces data breach risk and financial exposure
- Increases customer trust and boosts public image

**Get Protected.
Get Compliant.
Get CERTIFIED.**

InfoSafe Certification provides critical third party validation and certification that your business meets or exceeds the minimum recommended standards for protecting your customer information against data breaches and identity theft.
